Introduction

IGLYO is a European network of over 95 lesbian, gay, bisexual, transgender, queer and intersex youth and student organisations. As a youth development and capacity building organisation, IGLYO builds the confidence, skills and experience of young people to become leaders within the LGBTQI and human rights movements. We achieve this through a range of international conferences, events and workshops, as well as developing online training and resources.

IGLYO's vision is a world where we, young people in all our diversity, are able to express and define our own sexual orientations, gender identities, gender expressions, sex characteristics and bodily diversity without fear of judgment, violence or hatred, so that we are able to participate without limitation in our lives, our communities and our societies without barriers and can rise to our full potential, enjoying respect, celebration and positive recognition.
